

SOC-in-a-BOX Incident Report

Incident ID: INC-2026-001

Status: Closed

Severity: Medium

Date Detected: 2026-03-30

Analyst: Anthony

Detection Source: Wazuh SIEM

Affected Asset: WIN10-01

Executive Summary

On March 30, 2026, the Wazuh SIEM generated an alert indicating repeated failed authentication attempts against the local Administrator account on WIN10-01.

Investigation determined the activity originated from a Kali Linux host within the lab environment and was part of an authorized attack simulation.

No unauthorized access was achieved.

Detection

Alert Source:

Wazuh SIEM

Alert Description:

Multiple failed authentication attempts detected.

Source Host:

KALI-01

Source IP:

192.168.56.X

Target Host:

WIN10-01

Target Account:

Administrator

SOC-in-a-BOX Incident Report

Evidence

Wazuh Alert
